Subject: Re: Relativistic EPR

Dear Michael,

I'm very glad you agree to the small changes I suggested. They have by now already been put into the text. I cannot answer your question about the intentions of Ghirardi and Grassi and can only try to understand their argument.

On a different but not entirely disconnected matter, Bob Cohen, who is general editor of the Festschrift, says that Kluwer may be willing to print a small paper back edition of the Festschrift in addition to the regular hard cover edition. For this purpose he wants to compile a good rather specialized mailing list. Would it be possible for Kluwer, or Bob, to make use of the mailing list of Studies in History and Philosophy of Modern Physics for this purpose, and even better to buy a set of mailing labels? I understand that this aid may go against the policy of the journal, and hence I don't want to press you at all. Our motivation is just to increase the circulation of the Festschrift, which has very good content indeed, but which may suffer from the oblivion that often is inflicted upon such productions. We don't want some thirty gems of purest ray serene to sink into a cave.

With best wishes, Abner
